Title: Brain - The Connection Center

Medium: Water Color

"The brain holds the intricate network of connections for thoughts, feelings, and emotions, revealing the multifaceted nature of the mind. Osteopathy emphasizes the interrelation of mind, body, and spirit, asserting that all three aspects must be taken into account in patient care."

Painting by Tanner Roberts, OMS IV

# AAOJ Call for Submissions

Time is precious and article writing is often triaged for busy physicians. In an effort to help guide the journal and stimulate interest in academic and scholarly activity, we are providing some broad topics that can be “reserved” for you. These are by no means the only topics for the journal, but it helps to eliminate the writer’s block that so many of us may face.

## Book Review on a recent title

### Science

- Review the functional anatomy, osteopathic considerations, and literature review relevant for cluster headaches and other trigeminal headaches, BPPV, or trigeminal neuralgia

### Art

- Use a written piece, photograph or piece of art to express the art of osteopathic medicine or the unity of body, mind, and spirit

### Philosophy

- How can therapy or counseling intersect with OMT?

### History

- Write about a situation where osteopathic medicine intersected with American or international history
- Present the evolution and variations of a particular technique approach

### Personal Reflection

- What is it like to go through a fellowship?

If you are interested in any of these topics, send an email to [communications@academyofosteopathy.org](mailto:communications@academyofosteopathy.org) and reserve your topic today. Manuscripts should be submitted to PeerTrack within three months of reserving a topic. See the AAOJ’s [Instructions for Contributors](#) for more information on submitting manuscripts.

In addition, we are asking for peer reviewers to assist us in producing the best journals we can. Contact the AAO Publications Administrator at [communications@academyofosteopathy.org](mailto:communications@academyofosteopathy.org) if you can help in this capacity. No experience is required, and training resources will be provided. Peer reviewers are expected to review at least 2 manuscripts per year.
