On the cover:

Title: "2024 Eclipse Composite"

by Karen T. Snider, DO, MS, FAAO, FNAOME

AAOJ Call for Submissions

Time is precious and article writing is often triaged for busy physicians. In an effort to help guide the journal and stimulate interest in academic and scholarly activity, we are providing some broad topics that can be “reserved” for you. These are by no means the only topics for the journal, but it helps to eliminate the writer’s block that so many of us may face.

Book Review on a recent title

Science

- Review the functional anatomy, osteopathic considerations, and literature review relevant for cluster headaches and other trigeminal headaches, BPPV, or trigeminal neuralgia

Art

- Use a written piece, photograph or piece of art to express the art of osteopathic medicine or the unity of body, mind, and spirit

Philosophy

- How can therapy or counseling intersect with OMT?

History

- Write about a situation where osteopathic medicine intersected with American or international history
- Present the evolution and variations of a particular technique approach

Personal Reflection

- What is it like to go through a fellowship?

If you are interested in any of these topics, send an email to communications@academyofosteopathy.org and reserve your topic today. Manuscripts should be submitted to PeerTrack within three months of reserving a topic. See the *AAOJ*’s [Instructions for Contributors](#) for more information on submitting manuscripts.

In addition, we are asking for peer reviewers to assist us in producing the best journals we can. Contact the AAO Publications Administrator at communications@academyofosteopathy.org if you can help in this capacity. No experience is required, and training resources will be provided. Peer reviewers are expected to review at least 2 manuscripts per year.
